Contents

Volume 40 Issue 1 January 2006

1 *In this issue*
Editorials
2 The new Editor writes *J McLachlan*
3 Meeting the needs of simulated patients and caring for the person behind them? *J Spencer & J Dales*
5 Critical friendship *J Gordon*
Commentaries
7 Face validity of assessments: faith-based interpretations or evidence-based science? *S M Downing*
9 Primary care is dying in the United States: *mutatis mutandis* *H Kenneth Walker*
11 Is bedside teaching in cardiology necessary for the undergraduate education of medical students? *C P Gale & R P Gale*
13 In-training assessment (ITA): designing the whole to be greater than the sum of the parts *J K Savage*
16 Correspondence course – advice on writing for *Medical Education*'s Letters section *J Brice*
Communication skills
18 Relationship of resident characteristics, attitudes, prior training and clinical knowledge to communication skills performance *T Suzuki Laidlaw, D M Kaufman, H MacLeod, S van Zanten, D Simpson & W Wrixon*
Standardised patients
26 The risks and benefits of being a young female adolescent standardised patient *K D Blake, J Gusella, S Greaven & S Wakefield*
Assessment
36 The effect of defined violations of test security on admissions outcomes using multiple mini-interviews *H I Reiter, P Salvatori, J Rosenfeld, K Trinh & K W Eva*
43 Professionalism in general practice: development of an instrument to assess professional behaviour in general practitioner trainees *K van de Camp, M Vernooij-Dassen, R Grol & B Bottema*
51 In-training assessment: qualitative study of effects on supervision and feedback in an undergraduate clinical rotation *H E M Daelmans, R M Overmeer, H H van der Hem-Stokroos, A J J A Scherpbier, C D A Stehouwer & C P M van der Vleuten*
Undergraduate teaching
59 Randomised, controlled study investigating the optimal instructor: student ratios for teaching suturing skills *A Dubrowski & H MacRae*
64 On the relationship between group functioning and study success in problem-based learning *J Nieminen, P Sauri & K Lonka*
Medical teaching
72 To be and to have a critical friend in medical teaching *L O Dahlgren, B E Eriksson, H Gyllenhammar, M Korkeila, A Sääf-Rothoff, A Wernerson & A Seeberger*
Career satisfaction
79 A comparison study of career satisfaction and emotional states between primary care and speciality residents *D E Girard, D Choi, J Dickey, D Dickerson & J D Bloom*
Letter to the editor
87 Paired seminar-teaching by basic medical scientists and clinicians *M Feldman & S Schubert*
88 **Corrigenda**
89 **ASME announcement**

Volume 40 Issue 2 February 2006

91 *In this issue*
Editorial
92 Learning in teaching hospitals and the community: time to get the balance right *J Morrison*
Announcement
94 New Editor for *The Clinical Teacher*
Commentaries
95 Is there a role for peer review in performance appraisal of medical students? *W Ramsey & C Owen*
97 Clinical education: context is everything *D Snadden*
99 Whither the need for faculty development? *K W Eva*
Making sense of qualitive research
101 Making sense of grounded theory in medical education *T J T Kennedy & L A Lingard*
Learning environments
109 Empirical evidence for symbiotic medical education: a comparative analysis of community and tertiary-based programmes *P Worley, D Prideaux, R Strasser, A Magarey & R March*
117 Comparative academic performance of medical students in rural and urban clinical settings *B Waters, J Hughes, K Forbes & D Wilkinson*
121 Perceptions of the learning environment in higher specialist training of doctors: implications for recruitment and retention *V Cross, C Hicks, J Parle & S Field*
Learning techniques
129 Analysis of verbal interactions in tutorial groups: a process study *A J S F Visschers-Pleijers, D H J M Dolmans, B A de Leng, I H A P Wolfhagen & C P M van der Vleuten*

138 Multi-dimensional profiling of medical students' cognitive models about learning *H Askell-Williams & M J Lawson*
146 The acquisition of tacit knowledge in medical education: learning by doing *P J McLeod, Y Steinert, T Meagher, L Schuwirth, D Tabatabai & A H McLeod*
Learning theories
150 Broadening conceptions of learning in medical education: the message from teamworking *A Bleakley*
Students & patients
158 Follow the patient: process and outcome evaluation of medical students' educational experiences accompanying outpatients *K Mukohara, N Ban, G Sobue, Y Shimada, T Otani & S Yamada*
Standards and assessment
166 Setting school-level outcome standards *D T Stern, M Friedman Ben-David, J Norcini, A Wojtczak & M R Schwarz*
173 Not knowing that they do not know: self-assessment accuracy of third-year medical students *V Langendyk*
180 The relationship between professional behaviour grades and tutor performance ratings in problem-based learning *D H Dolmans, S J van Luijk, I H Wolfhagen & A J Scherpbier*
Letter to the editor
187 Medical students and literature: are we expecting too much? *J Thistlethwaite*
188 **ASME announcement**

Volume 40 Issue 3 March 2006

189 *In this issue*
Editorial
190 *Medical Education* past, present and future *M Jackson & K Calman*
Commentary
193 Bordage: following in Flexner's footsteps *L Pritchard*
Medical education history
195 Science in the undergraduate curriculum during the 20th century *D J Weatherall*
202 A short history of the General Medical Council *Sir D Irvine*
212 The shaping of things to come: Scottish medical education 1700–1939 *C Lawrence*
219 Anatomy and embryology in medical education at Cambridge University, 1866–1900 *H J Blackman*
227 Reform and innovation: a repeating pattern during a half century of medical education in the USA *C E Putnam*
235 Medical education in London during 1939–41, with special reference to the Blitz *K O'Flynn*
243 Anatomy teaching: ghosts of the past, present and future *J C McLachlan & D Patten*
254 The history of simulation in medical education and possible future directions *P Bradley*
Arts & humanities
263 Training the clinical eye and mind: using the arts to develop medical students' observational and pattern recognition skills *J Shapiro, L Rucker & J Beck*
269 Students' moral reasoning, Machiavellianism and socially desirable responding: implications for teaching ethics and research integrity *D Hren, A Vujaklija, R Ivanišević, J Knežević, M Marušić & A Marušić*
278 The first medical humanities programme in Turkey *M Elcin, O Odabasi, K Ward, S Turan, C Akyüz & I Sayek*
283 **Forthcoming papers**
284 **ASME announcement**

Volume 40 Issue 4 April 2006

285 *In this issue*
Editorial
286 Workforce: the new core curriculum for medical schools *D Prideaux*
Commentaries
288 Crafting the reflective lifelong learner: why, what and how *M A Albanese*
291 Using qualitative interviews within medical education research: why we must raise the 'quality bar' *S Reeves, S Lewin & M Zwarenstein*
293 Perspectives on the scholarship of teaching *R-M E Fincher & J A Work*
Assessment
296 A plea for new psychometric models in educational assessment *L W T Schuwirth & C P M van der Vleuten*
Current perspectives
301 Caring for a common future: medical schools' social accountability *R F Woollard*
Making sense of qualitative research
314 The qualitative research interview *B DiCicco-Bloom & B F Crabtree*
Teaching professionalism
323 Medical students' perceptions of their learning about the doctor–patient relationship: a qualitative study *M C Fantini Nogueira-Martins, L A Nogueira-Martins & E R Turato*
329 Undergraduate ethics teaching: revisiting the Consensus Statement *K Mattick & J Bligh*

The international workforce

333 Participation in the workforce by Australian medical graduates *C M Joyce & J J McNeil*

340 A study of a multisource feedback system for international medical graduates holding defined licences *J Lockyer, D Blackmore, H Fidler, R Crutcher, B Salte, K Shaw, B Ward & N Wolfish*

Postgraduate teaching and learning

348 Views, behaviours and perceived staff development needs of doctors and surgeons regarding learners in outpatient clinics *P A O'Neill, A C Owen, P J McArdle & K A Duffy*

355 The training/service continuum: exploring the training/service balance of senior house officer activities *S Derrick, B Badger, J Chandler, T Nokes & G Winch*

Reflective learning

363 The reliability and validity of a matrix to assess the completed reflective personal development plans of general practitioners *C Roberts, I Cromarty, J Crossley & B Jolly*

371 Participants' opinions on the usefulness of a teaching portfolio *D E H Tigelaar, D H J M Dolmans, W S de Grave, I H A P Wolfhagen & C P M van der Vleuten*

379 Students' views of reflective learning techniques: an efficacy study at a UK medical school *A Grant, P Kinnersley, E Metcalf, R Pill & H Houston*

Student distress

389 Comparing the distress of American and Israeli medical students studying in Israel during a period of terror *S Kovatz, I Kutz, G Rubin, R Dekel & L Shenkman*

Postgraduate education

415 Validating the Readiness for Interprofessional Learning Scale (RIPLS) in the postgraduate context: are health care professionals ready for IPL? *R Reid, D Bruce, K Allstaff & D McLernon*

423 Surgeons' participation in continuing medical education: is it evidence-based? *J M Young, M J Hollands & M J Solomon*

Public health education

430 Undergraduate public health education in UK medical schools – struggling to deliver *S Gillam & A Bagade*

Consultation skills

437 Strengths and weaknesses in the consultation skills of senior medical students: identification, enhancement and curricular change *A Hastings, R McKinley & R Fraser*

Clinical competence

444 The use of standardised patients to assess clinical competence: does practice make perfect? *B Stimmel, D Cohen, R Fallar & L Smith*

450 Influence of clerkship experiences on clinical competence *P F Wimmers, H G Schmidt & T A W Splinter*

Really Good Stuff: New ideas in medical education

459 A peer-reviewed collection of reports on innovative approaches to medical education edited by *M Brownell Anderson*

490 **ASME Announcement**

Letter to the editor

491 Research or audit? Ethical approval for medical student clinical projects *J Alcolado & R Bennett*

Volume 40 Issue 5 May 2006

395 *In this issue*

Editorials

396 Clinical competencies achievement profiles – a way forward for students with disabilities? *J McLachlan*

397 Of pendulums and sheriffs *J A Spencer*

Commentaries

399 Getting the measure of interprofessional learning *K Mattick & J Bligh*

401 How education can disable discrimination *L Pritchard*

403 Thinking outside the (tick) box: rescuing professionalism and professional judgement *D Fish & L de Cossart*

Making sense of qualitative research

405 Making sense of qualitative data analysis: an introduction with illustrations from DIPEx (personal experiences of health and illness) *S Ziebland & A McPherson*

Volume 40 Issue 6 June 2006

493 *In this issue*

Editorials

494 Problem-based Learning *B Jolly*

495 Career preferences in medicine for the 21st century *J Morrison*

498 Audit or research: the ethics of publication *D Prideaux & W Rogers*

Commentaries

500 Biobanks: can they overcome controversy and deliver on their promise to unravel the origins of common diseases? *O Corrigan*

502 A covenant model for the medical educator–student relationship: lessons from the covenant model of the physician–patient relationship *J Nisker*

Career choice

504 Interdisciplinary health education and career choice in rural and underserved areas *R L Rhyne, Z M Daniels, B J Skipper, M L Sanders & B J VanLeit*

514 Career choices of United Kingdom medical graduates of 2002: questionnaire survey *T W Lambert, M J Goldacre & G Turner*
522 Influences on choice of surgery as a career: a study of consecutive cohorts in a medical school *D T Sobral*
530 The compatibility of future doctors' career intentions with changing health care demands *M A G van Offenbeek, D J Kiewiet & M J Oosterhuis*
Paediatrics
539 How well do paediatric residency programmes prepare residents for clinical practice and their future careers? *L Lieberman & R I Hilliard*
Problem-based learning
547 A comparison of the effects of problem-based learning and lecturing on the development of students' critical thinking *A Tiwari, P Lai, M So & K Yuen*
555 Measuring the effect of interprofessional problem-based learning on the attitudes of undergraduate health care students *G Goelen, G De Clercq, L Huyghens & E Kerckhofs*
562 Longterm effects of problem-based learning: a comparison of competencies acquired by graduates of a problem-based and a conventional medical school *H G Schmidt, L Vermeulen & H T van der Molen*
568 Student perceptions of a virtual learning environment for a problem-based learning undergraduate medical curriculum *B A de Leng, D H J M Dolmans, A M M Muijtjens & C P M van der Vleuten*
Learning style
576 Validation of learning style measures: implications for medical education practice *D M Chapman & J G Calhoun*
Stress and debt
584 Stress, debt and undergraduate medical student performance *S Ross, J Cleland & M J Macleod*
Arts and humanities
590 Ethical decision making on truth telling in terminal cancer: medical students' choices between patient autonomy and family paternalism *S-J Sheu, S-H Huang, F-I Tang & S-L Huang*
Letters to the editor
599 The assessment of professionalism *I Wilson*
600 Mini-ClinEx versus Mini-CEX *G Corrigan, F J Bowden & C Owen*
601 **WFME announcement**
602 **ASME announcement**

Volume 40 Issue 7 July 2006

603 *In this issue*
Commentary
604 Clinical education: teachers and Stritter's student *B Jolly*
Current perspectives
607 Professionalism in medical education, an American perspective: from evidence to accountability *J J Cohen*
Case specificity
618 How specific is case specificity? *G Norman, G Bordage, G Page & D Keane*
Communication
624 Communication skills competencies: definitions and a teaching toolbox *E A Rider & C H Keefer*
630 Assessing resident's knowledge and communication skills using four different evaluation tools *J Nuovo, K D Bertakis & R Azari*
Clinical teaching
637 Clinical teaching and clinical outcomes: teaching capability and its association with patient outcomes *O Mourad & D A Redelmeier*
645 Describing clinical teachers' characteristics and behaviours using critical incidents and repertory grids *P Chitsabesan, S Corbett, L Walker, J Spencer & J R Barton*
654 Clinical teachers as role models: perceptions of interns and residents in a Lebanese medical school *A Yazigi, M Nasr, G Sleilaty & E Nemr*
Duty hours
662 Baseline duty hours recorded with time-cards: a pre-regulation study of internal medicine residents *L W Chang, A R Vidyarthi & R J Kohlwes*
The clinical curriculum
667 Student evaluation of the clinical 'curriculum in action' *T Dornan, A Miujtens, J Hadfield, A Scherpbier & H Boshuizen*
Learning objectives
675 Complex perspectives on learning objectives: stakeholders' beliefs about core objectives based on focus group interviews *A M Morcke, G Wichmann-Hansen, D G Nielsen & B Eika*
Diversity
682 Can we assess students' awareness of cultural diversity? A qualitative study of stakeholders' views *N Dogra & V Wass*
691 Medical students' perceptions of racial diversity and gender equality *M Lee & J L Coulehan*
697 Refugees and medical student training: results of a programme in primary care *K Griswold, J B Kernan, T J Servoss, F G Saad, C M Wagner & L E Zayas*

704 Integrating cultural competency into the undergraduate medical curriculum *D E Rapp*
Letters to the editor
711 Responding to student resistance *J Roberts*
712 Quality assurance in medical education and the New Foundation Scheme *B Lieske*
713 **Forthcoming papers**
714 **ASME announcement**

Volume 40 Issue 8 August 2006

715 *In this issue*
Editorial
716 The relationship between assessment and learning *J C McLachlan*
Announcement
718 Appointment of new Deputy Editor
Commentary
719 Chronic condition self-management: is there a need for a specific curriculum for medical students? *R G Pols & M W Battersby*
Announcement
721 Call for Papers My Story – narratives in medical education
Risk taking
722 Medical student attitudes to risk taking and self-perceived influence on medical practice *M Weissberg, J T Sakai, T J Miyoshi & G E Fryer*
Problem-based learning
730 The influence of tutoring competencies on problems, group functioning and student achievement in problem-based learning *H J M van Berkel & D H J Dolmans*
Personal growth
737 Personal growth and its correlates during residency training *S M Wright, R B Levine, B Beasley, P Haidet, T W Gress, S Caccamese, D Brady, A Marwaha & D E Kern*
Feedback
746 An investigation of medical student reactions to feedback: a randomised controlled trial *M L Boehler, D A Rogers, C J Schwind, R Mayforth, J Quin, R G Williams & G Dunnington*
Widening participation
750 Monitoring the widening participation initiative for access to medical school: are present measures sufficient? *P C T Do, J Parry, J Mathers & M Richardson*
Communication skills
759 A qualitative study examining tensions in interdoctor telephone consultations *A Wadhwa & L Lingard*
Reflection
768 Experiential learning in women's health: medical student reflections *S Carr & D Carmody*
Interviewing skills
775 Do students develop better motivational interviewing skills through role-play with standardised patients or with student colleagues? *A L Mounsey, V Bovbjerg, L White & J Gazewood*
Simulated patients
781 The impact of simulation on people who act as simulated patients: a focus group study *L Bokken, J van Dalen & J-J Rethans*
Simulation
787 Effect of practice on standardised learning outcomes in simulation-based medical education *W C McGaghie, S B Issenberg, E R Petrusa & R J Scalese*
Chronic disease
793 Chronic patients in undergraduate education: didactic value as perceived by students *J P M Diederiks, H Bosma, J T M van Eijk, M van Santen, A Scherpbier & C van der Vleuten*
Community-based education
798 Comparison of outcomes of a community-based education programme executed with and without active community involvement *T N Kristina, G D Majoor & C P M van der Vleuten*
CanMEDS
807 Are some of the challenging aspects of the CanMEDS roles valid outside Canada? *C Ringsted, T L Hansen, D Davis & A Scherpbier*
Perinatal education
816 Effectiveness of a regional self-study perinatal education programme: a successful adaptation in Yucatan, Mexico *L R Osorno, M C Campos, L J Cook, G R Vela & J R Dávila*
Letters to the editor
824 Gaining perspective on mentoring Generation X *K C Johnston*
825 An opener – and a plea for the baby still in the bathwater *J Crossley*
826 **ASME announcement**

Volume 40 Issue 9 September 2006

827 *In this issue*
Commentaries
828 Three blind mice—might make good reviewers *M Albanese*
830 The case for open peer review *J Morrison*
Journal peer review
832 To blind or not to blind? What authors and reviewers prefer *G Regehr & G Bordage*
Assessment
840 Temporal and group-related trends in peer assessment amongst medical students *S J Lurie, A C Nofziger, S Meldrum, C Mooney & R M Epstein*

848 Assessment of clinical reasoning in the context of uncertainty: the effect of variability within the reference panel *B Charlin, R Gagnon, J Pelletier, M Coletti, G Abi-Rizk, C Nasr, É Sauvé & C van der Vleuten*

855 The usability of personal digital assistants (PDAs) for assessment of practical performance *I Treadwell*

862 Validity of portfolio assessment: which qualities determine ratings? *E W Driessen, K Overeem, J van Tartwijk, C P M van der Vleuten & A M M Muijtjens*

Developing teaching cases

867 Developing teaching cases: a review and synthesis of the literature across disciplines *S Kim, W R Phillips, L Pinsky, D Brock, K Phillips & J Keary*

Foundation programmes

877 Class half-empty? Pre-registration house officer attendance at weekly teaching sessions: implications for delivering the new Foundation Programme curriculum *R Higgins, S Cavendish & R Gregory*

Student study

884 Clinical clerkships: students can structure their own learning *P Smith & J Morrison*

893 Pre-registration house officers' views on studying under a reformed medical curriculum in the UK *S Watmough, A Garden & D Taylor*

Student learning

900 Validity of index of learning styles scores: multitrait–multimethod comparison with three cognitive/learning style instruments *D A Cook & A J Smith*

908 Disentangling clinical learning experiences: an exploratory study on the dynamic tensions in internship *A Deketelaere, G Kelchtermans, E Struyf & P De Leyn*

916 Learning approaches to physiology of undergraduates in an Indian medical school *R R Abraham, A Kamath, S Upadhya & K Ramnarayan*

Problem-based learning

924 Student perceptions about the characteristics of an effective discussion during the reporting phase in problem-based learning *A J S F Visschers-Pleijers, D H J M Dolmans, W S de Grave, I H A P Wolfhagen, J A Jacobs & C P M van der Vleuten*

Letters to the editor

932 Problem-based learning training *P Stride*

932 A perceived problem of gaining participation in postgraduate medical education research in NHS Acute Trusts *R Mann*

933 Let a thousand flowers bloom *K Walsh*

934 **ASME announcement**

Volume 40 Issue 10 October 2006

935 *In this issue*

Commentaries

936 Progressing professionalism *J Gordon*

938 Current perspectives on medical education in China *M Field, L Geffen & T Walters*

Current perspective

940 Current perspectives on medical education in China *T P Lam, X H Wan & M S M Ip*

Clinical skills

950 Assessing the mini-Clinical Evaluation Exercise in comparison to a national specialty examination *R Hatala, M Ainslie, B O Kassen, I Mackie & J M Roberts*

957 Evaluation of consent for peer physical examination: students reflect on their clinical skills learning experience *A Wearn & H Bhoopatkar*

Undergraduate learning

965 The effectiveness, reliability and acceptability of peer-marking in first-year medical students *R English, S T Brookes, K Avery, J M Blazeby & Y Ben-Shlomo*

973 Speed kills? Speed, accuracy, encapsulations and causal understanding *N N Woods, E H A Howey, L R Brooks & G R Norman*

Postgraduate training

980 The effects of a joint vocational training programme for general practitioner and occupational health trainees *N Nauta, A Weel, P Overzier & J von Grumbkow*

987 Innovative training for new surgical roles – the place of evaluation *R L Kneebone, D Nestel, J Chrzanowska, A E Barnet & A Darzi*

995 Educational supervisors evaluate the preparedness of graduates from a reformed UK curriculum to work as pre-registration house officers (PRHOs): a qualitative study *S Watmough, D Taylor & A Garden*

1002 Quality of clinical supervision as perceived by specialist registrars in a university and district teaching hospital *M Bruijn, J O Busari & B H M Wolf*

Medical school admissions

1009 Growth of private medical education in India *A Mahal & M Mohanan*

1012 The predictive validity of grade point average scores in a partial lottery medical school admission system *J Cohen-Schotanus, A M M Muijtjens, J J Reinders, J Agsteribbe, H J M van Rossum & C P M van der Vleuten*

Curriculum
1020 Relevant behavioural and social science for medical undergraduates: a comparison of specialist and non-specialist educators *S Peters & A Livia*
Professionalism
1027 Perceptions of professionalism in medicine: a qualitative study *V Jha, H L Bekker, S R G Duffy & T E Roberts*
Professinalism
1037 Genesis of the professional–patient relationship in early practical experience: qualitative and quantitative study *M Scavenius, S Schmidt & N Klazinga*
Arts and humanities
1045 Developing history of medicine in the University of Liverpool medical curriculum 1995–2005 *S Sheard*
Letter to the editor
1053 Do the supervision needs of 'clerkship students' change as they become more experienced? *J Crossley*
1054 **Forthcoming papers**
1055 **Errata**
1056 **ASME announcement**

Volume 40 Issue 11 November 2006

1057 *In this issue*
Medical school selection
1058 Medical school selection: screening for dysfunctional tendencies *J A Knights & B J Kennedy*
Undergraduate education
1065 Free choice and career choice: clerkship electives in medical education *T Mihalynuk, G Leung, J Fraser, J Bates & D Snadden*
1072 The teaching of professional attitudes within UK medical schools: reported difficulties and good practice *A E Stephenson, L E Adshead & R H Higgs*
1081 Can virtual reality improve anatomy education? A randomised controlled study of a computer-generated three-dimensional anatomical ear model *D T Nicholson, C Chalk, W R J Funnell & S J Daniel*
1088 Effects of rater selection on peer assessment among medical students *S J Lurie, A C Nofziger, S Meldrum, C Mooney & R M Epstein*
Clinical skills education
1098 Development of a rating system for surgeons' non-technical skills *S Yule, R Flin, S Paterson-Brown, N Maran & D Rowley*
1105 Assessing procedural skills in context: exploring the feasibility of an Integrated Procedural Performance Instrument (IPPI) *R Kneebone, D Nestel, F Yadollahi, R Brown, C Nolan, J Durack, H Brenton, C Moulton, J Archer & A Darzi*
Postgraduate education
1115 Doctors' views about their first postgraduate year in UK medical practice: house officers in 2003 *T W Lambert & M J Goldacre*
Really Good Stuff: New ideas in medical education
1123 A peer-reviewed collection of reports on innovative approaches to medical education *M Brownell Anderson*
Letters to the editor
1148 Medical education and the role of the General Medical Council *J Walton*
1149 More thoughts on assessment drives learning *J Thistlethwaite*
1151 **ASME announcement**

Volume 40 Issue 12 December 2006

1153 *In this issue*
Editorial
1154 "My Story" a new departure for Medical Education *J C Mclachlan*
Poem
1156 The Love Song of a Dean, with apologies to T S Eliot *I Scott*
My story
1159 Are women residency supervisors obligated to nurture? *L D Hirshbein*
International medical education
1162 A comprehensive assessment of medical schools in Bosnia and Herzegovina *V J Šimunović, H-G Sonntag, D Hren, J Dørup, Z Krivokuća, D Bokonjić, H Verhaaren, A Horsch, M Mimica, B Vojniković, H Selesković, R Marz, A Marušić & M Marušić*
Clinical competence
1173 Diagnostic ability in relation to clinical seminars and extended-matching questions examinations *J Beullens, E Struyf & B Van Damme*
1180 Evaluating medical students' non-verbal communication during the objective structured clinical examination *H Ishikawa, H Hashimoto, M Kinoshita, S Fujimori, T Shimizu & E Yano*
1188 Good for them or good for us? The role of academic guidance interviews *A R Denison, A E Currie, M R Laing & S D Heys*
Postgraduate teaching and learning
1192 Evaluation of residency training in the delivery of culturally effective care *M L Zúñiga, D E Sidelinger, G S Blaschke, F A Silva, S L Broyles, P R Nader & V Reznik*
1201 Use of critical incidents to develop a rating form for resident evaluation of faculty teaching *C Silber, K Novielli, D Paskin, T Brigham, J Kairys, G Kane & J Veloski*

1209 Factor instability of clinical teaching assessment scores among general internists and cardiologists *T J Beckman, D A Cook & J N Mandrekar*
1217 Pharmacist-supported medication review training for general practitioners: feasibility and acceptability *J Krska, D Gill & D Hansford*
1226 List of reviewers for 2006
Letter to the editor
1230 Trainee doctors' opinion of Modernising Medical Careers: a questionnaire survey in the London region *S S Vasani, P Velusami, A Rashid & G Ahluwalia*
1231 **WFME announcement**
1232 **ASME announcement**
1233 **Author index**
1241 **Subject index**
